Insights & Recommendations

Key business findings, performance analysis and strategic recommendations

01 — Sales Performance

Finding: Total revenue reached 227.19M. Monthly revenue declined from approximately 21M in October 2024 to 16M in January 2025 (around 24%). Electronics is the leading category (64M), while Cosmetics has the lowest sales (28M). Evidence is the top-selling product (9.9M), followed by Discuss Max (6.2M) and Bank Pro (5.9M).

Recommendation: Investigate the revenue decline, promote high-performing products, and improve sales strategies for underperforming categories.

02 — Logistics Efficiency

Finding: Total warehouse revenue reached 298.29M across 10 warehouses, with 124K units in stock. Warehouse 9 leads in revenue (43M), while Warehouse 5 generates only 15M. East Kazakhstan has the highest shipping costs (16.8K), and Pickup accounts for nearly 50% of total shipping costs.

Recommendation: Investigate the performance gap between warehouses, optimize inventory allocation, and review shipping costs in East Kazakhstan to improve logistics efficiency.

03 — Customer Insights

Finding: The company has 201 customers across 9 cities, with 200 active customers (99.5%). Atyrau leads with 30 customers, followed by Pavlodar (29) and Almaty (28). Astana has the lowest customer count (1). Customers place an average of 10 orders each.

Recommendation: Focus on customer acquisition in underrepresented cities, especially Astana. Strengthen customer retention strategies and introduce loyalty programs to encourage repeat purchases.

04 — Employee Performance

Finding: The company employs 101 people with a total payroll of 34.14M and an average salary of 338K. Revenue per employee is 2.25M. Warehouse Clerks represent the largest employee group (21), while Warehouse 7 has the highest payroll (6M).

Recommendation: Review payroll distribution across warehouses, evaluate staffing efficiency, and monitor revenue per employee to identify opportunities for workforce optimization.
